Описание границ публичного сервитута

ВЛ-0,4 кВ КТП268 3030 м

Местоположение публичного сервитута: Астраханская область, г. Астрахань

Система координат: МСК-30

Метод определения координат: Метод спутниковых геодезических измерений (определений)

Средняя квадратическая погрешность положения характерных точек (Мт) в метрах: 0.10

| Перечень характерных точек                   |               |            |
|----------------------------------------------|---------------|------------|
| Площадь зоны публичного сервитута 12226 кв.м |               |            |
| Обозначение характерных точек границ         | Координаты, м |            |
|                                              | X             | Y          |
| 1                                            | 2             | 3          |
| 1                                            | 421050.08     | 2218973.28 |
| 2                                            | 421049.72     | 2218973.14 |
| 3                                            | 421049.39     | 2218972.95 |
| 4                                            | 421049.24     | 2218972.83 |
| 5                                            | 421046.22     | 2218970.3  |
| 6                                            | 421030.15     | 2218992.68 |

Описание границ публичного сервитута

ВЛ-0,4 кВ КТП268 3030 м

Местоположение публичного сервитута: Астраханская область, г. Астрахань

Система координат: МСК-30

Метод определения координат: Метод спутниковых геодезических измерений (определений)

Средняя квадратическая погрешность положения характерных точек (Mt) в метрах: 0.10
